

A P A R T M E N T S

the MAGNOLIA

With over 1,540 square feet, the Magnolia is elegant in every sense of the word. The gracious entrance foyer, featuring a powder room and guest coat closet, introduces a light-filled formal living room/dining room with balcony (or terrace) access. An intimate den is adjacent to the master bedroom. Several Magnolia apartments have a separate formal dining room in the place of the den. In addition to the walk-in closets in the bedrooms, a linen closet and a pantry, the laundry room provides exceptional storage. The Magnolia is clearly a most attractive alternative for residents who seek the convenience of being accessible to services in The Commons, without compromising their desire for plenty of living space.
